

**KAISER**  
**ALUMINUM**  
Bellwood Extrusion

February 11, 2010

To Whom It May Concern:

The Bellwood plant has been using the supplied services and equipment from Virginia Business Systems for many years and is very pleased with their performance.

This location recently under went a significant restructuring and Stephanie Smith went above and beyond to ensure that our equipment needs was economically sized for the new organizational structure.

Accordingly, I am recommending Virginia Business Systems for businesses buying/leasing photocopiers or printers.
